

Project Continuation Agreement

Project Name: EMISNEST

Date: 22nd September, 2025

This agreement is made between:

- **Developer:** Godwin Boadi ("Developer")
- **Client:** Emiola Umar ("Client")

Collectively referred to as "**Parties.**"

1. Background

The Developer and Client initially agreed on a two-week timeline for the full development of the EMISNEST project (backend, frontend, and landing page) for a total project fee of **350 CAD**.

Due to extended response times and delays in providing required resources (e.g., Stripe API keys), the project has extended beyond three months, impacting the Developer's schedule and resources.

2. Updated Payment Terms

As a result of the extended timeline, the following amounts are now due:

- **Outstanding balance from original project fee:** 129.60 CAD
- **Delay & timeline adjustment fee:** 120.4 CAD
- **Total Amount Due Before Continuation: 250 CAD**

The Client agrees that an agreed payment must be made before the Developer resumes work on the project and the remaining balance be paid 5 days prior to the end of the project timeframe given.

Payments are **non-refundable** for work completed or time invested.

3. Remaining Work to be Completed

Upon receipt of full payment, the Developer will complete the following remaining deliverables:

1. Integration and testing of Stripe payment functionality.

2. Finalization of all outstanding backend and frontend features.
 3. Delivery of the completed project as per the original agreed scope.
 4. Train client and team on the usage of the application.
-

4. Client Responsibilities

The Client agrees to:

- Provide all required resources, credentials, and timely responses within **48 hours** of a request.
 - Understand that delays caused by lack of timely communication or resources may result in additional fees or timeline extensions.
-

5. Timeline

The new estimated completion timeline will be **1 week**, starting from the date of confirmed payment. Any additional delays caused by the Client may extend this timeline further.

6. Agreement Termination

If the Client fails to make payment by **24th September, 2025**, the Developer reserves the right to terminate this agreement and discontinue the project. Any prior payments remain non-refundable.
